

Optional Accessories

Extension Housing- Increase the storage capacity of the Git'Um Fed Automated Animal Feeder by adding the simple to install extension housing. Remove the existing lid, clip on the extension housing in its place and install the lid on top of the extension housing.

Wall Bracket Kit- Mount the Git'Um Fed Automated Animal Feeder on a stable vertical surface for a more permanent application. The brackets provide sufficient support even when additional extension housings are used.

Spout Extender Kit- Provides delivery of animal feed *through* a vertical wall to a feed bin, tub, or trough on the other side. This prevents damage to the Feeder from larger animals and eliminates the need to enter the space where animals are being kept. The **Spout Extender Kit** contains a special hose and clamp along with the contents of the standard **Wall Bracket Kit**. The hose and clamp are available separately for those that have already purchased the **Wall Bracket Kit**.

To Order: Call Customer Service at 1-800-246-2405 or email gitumfed@horizondesignusa.com

Git'Um Fed™ Automated Animal Feeder is a product of Horizon Design and MFG. LLC.
